Mastering Chief's CAD Tools, 2h-3m 3. Check for and Install Program Updates Program updates contain improvements to the original release version and we recommend using the most current version available. Although you can migrate your template files for use in Version X12, for best results, it is recommended that you either: • Use the installed templates when creating new plans and layout files in Chief Architect Prem X12 • Use the installed templates as the basis for creating new custom templates.7. Set up Custom Toolbar Configurations It is possible to migrate toolbar configuration files from previous versions to Chief Architect Premier X12; however, it is possible that your migrated toolbars will be missing new tools available in Version X12. Create a new custom Template Plan and Layout files Chief Architect Premier X12 installs a selection of template plan and layout files that have been set up to take advantage of the program's updated tools and features. If multiple legacy versions are present on the system, only the data associated with the most recent will be migrated.4. Migrate Custom Graphics Files If you have custom graphics files, including textures, images, or backdrops, that you were using in a previous program version, you can copy them manually using your operating system for use in Chief Architect Premier X12.5. Review Your Preferences Settings Although you can migrate your Preferences settings from Versions X5 through X10 into Version X12, the settings that are available in Version X12 may differ from the previous program versions. 1. By default, Chief Architect checks for program updates every day when you launch the program.2. Review the New Features List There are a number of important reasons why you should familiarize yourself with the new and improved features in Chief Architect X12: • New and improved features allow you to produce drawings more efficiently, so it is to your advantage to use them. - Hallie Bowie, Architect - Dan talks our language through Chief Architect. 3D Slabs, Moldings, Trim & Solids, 1h-43m 10.
